## 10-01-2023 // WEEK 39 NOTES

### 1 Chronicles 28 - 2 Chronicles 21

Over the last week you have moved from 1st to 2nd Chronicles:

#### 1 Chronicles

Remember, several chapters in 1 Chronicles had to do with the divisions of towns, military leaders and the Levites.

#### 2 Chronicles

- This Book emphasizes the united kingdom of David and Solomon and the successful completion of all that David had started.
- The Temple is a place of repentance and restoration.
- After Solomon's death, division occurs. Starting with **chapter 10** you see the divided kingdoms and the slow, steady drift toward godlessness, Baal worship, and defeat.
- **Important:** Note that when there is a good king in Judah, there are blessings from God. When there is not, the curses come.
- In the northern kingdom, there is **not one good king**. Thus, its slide toward decadence happened much more quickly than the southern kingdom.

I hope these overviews help. Next week, we will conclude our readings in 2 Chronicles and move into the New Testament!
